Membership Chair –
Maria D. Martinez

Communications /
Awards & Honors –
Rachel E. Palmeri

Community
Outreach –
Damon Shodrock

Advisory Group –
Tim Halleran
David Hughes

Historian –
Jim Rainwater

Construction
Specialty Chair -
Rolando Cedillo

ASSP Strategic Plan

ASSP's Strategic Plan (2023 – 2028)

Our Mission

We are the community that protects people, property and the environment.

Our mission reflects our role as the guardians of workplace safety. Our ultimate goal is to have all workers return home to their loved ones safe, healthy and well each day.

Our Vision

Safety, health and well-being are inherent rights of every worker.

Our vision is an ideal to which we aspire, recognizing that this work requires collaboration with regulatory bodies, businesses and nongovernmental organizations as well as our community of safety and health professionals.

ASSP's Strategic Plan (2023 – 2028)

Our Values

Our CLEAR values guide our behavior, decisions and actions.

Including these values in our strategic plan emphasizes our commitment to community and continued excellence.

Professional Development & CEU Coordinator

Jeff Fitzwater, CSP, CHST, CSMC, CSHO

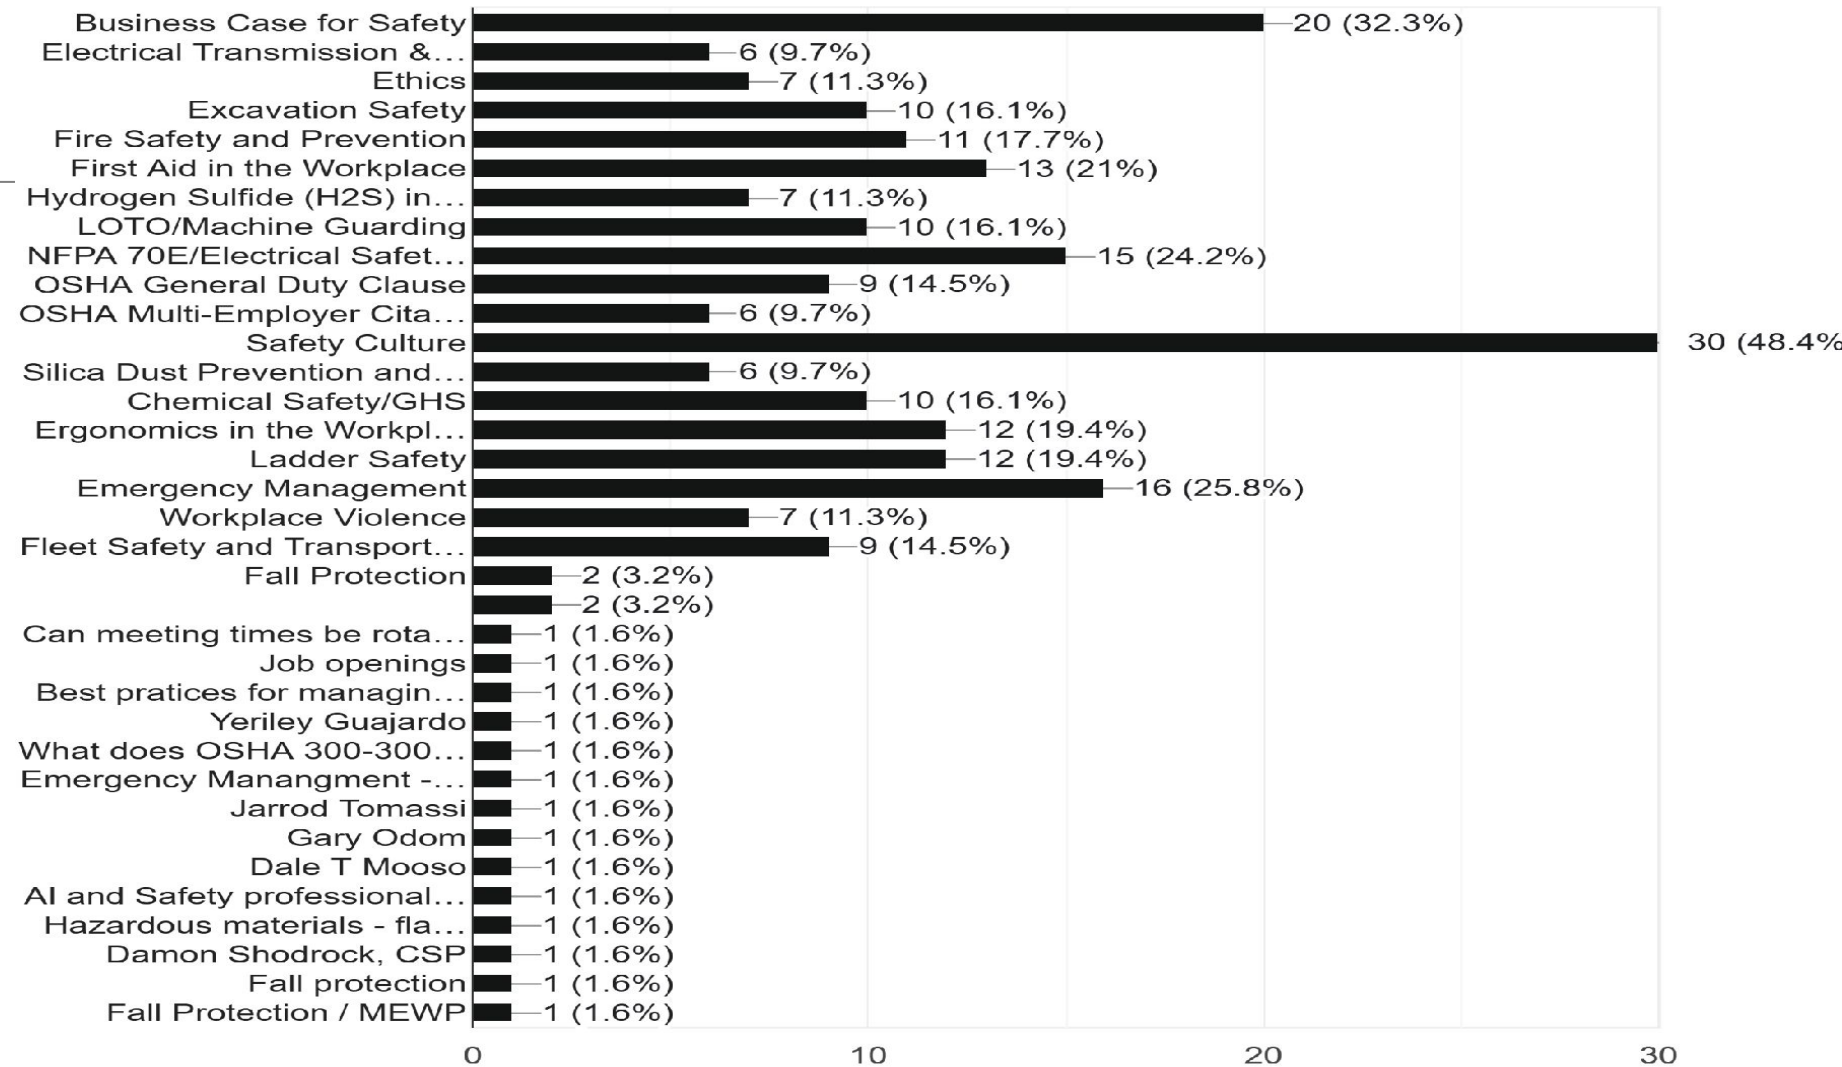

2026 PROFESSIONAL DEVELOPMENT SCHEDULE

Month	Topic	Speaker	Location	Presenter Form	CEU Status
JANUARY	Bloodborne Pathogens Exposure Control	Pearla Romero	Virtual	Yes	N/A
FEBRUARY	Mentorship	Rachel Palmeri	AGC	Yes	Yes
MARCH	Conscious Leadership in Safety	Ryan Bouda	Virtual	Yes	Yes
APRIL	From Incidents to Investment Using Zero Injury Plans to Systematically Reduce Risk	Damon Shodrock	AGC	Yes	Yes
MAY	Importance of Safety Certification	Jeff Fitzwater	Virtual	N/A	N/A
JUNE	OSHA vs MSHA: Safety's Dynamic Duo	Bob Huddleston	AGC	NO	NO
JULY	Crisis Management	Rebekah Smith	AGC	Yes	Yes
AUGUST	Integrating Non-English-Speaking Workers into Your Safety Program	Rolando Cedillo	AGC	N/A	N/A
SEPTEMBER	REGION III PDC				
OCTOBER	OSHA Overview	Victor Ramon	AGC	N/A	N/A
NOVEMBER	The Human Side of Safety: Making Safety Personal	Carl Loop	AGC	NO	NO
DECEMBER	Christmas Party

Government Affairs

Hank Austin, CSP
Government Affairs Chair

Changes To Scaffolding Rules

SUMMARY:

This final rule revokes 29 CFR 1911.10, which required the Assistant Secretary for Occupational Safety and Health (Assistant Secretary), who heads OSHA, to consult with the Advisory Committee on Construction Safety and Health (ACCSH) in the formulation of rules to promulgate, modify, or revoke standards applicable to construction work, and 29 CFR 1912.3, the general OSHA regulations governing ACCSH. This final rule also makes corresponding changes to 29 CFR 1911.11, 29 CFR 1911.15, 29 CFR 1912.8, and 29 CFR 1912.9. OSHA is revoking 29 CFR 1911.10 and 29 CFR 1912.3 because these regulations impose requirements on the Assistant Secretary that are more burdensome than those mandated by statute, and compliance with these regulations would needlessly delay the Secretary of Labor's (Secretary) regulatory agenda. These changes will ensure that ACCSH is able to advise the Secretary on potential regulatory actions without adversely affecting the agency's regulatory timeline.

Historian

Jim Rainwater, CSP
Chapter Historian

South Texas Chapter History

Established 10-05-1947

Update 08-17-2026

November 1972 Chuck Ernst, Bill Crossland, John McAlexander, and Ray Wangler reported out on what went on at the 60th Annual National Safety Congred.

October 1971 Eamonn F Grant, new member, presented on Southern Pacific Transportation Company about fleet safety and on their freight operations.

December 2025 – We had over 50 people attend the Christmas party with two guest being from University of Texas at San Antonio. As you know they are now the South Texas student Section.

Job Board & Career Center

Tim Halleran
Jobs Chair

ASSP Jobs Board / Career Center Resources

Chapter Jobs Board

Don't miss out on the perfect OSH job opportunity!

Our Jobs Board is a free service provided by the ASSP South Texas Chapter and is offered to all local safety and health professionals.

If you're hiring, you may post your job opportunity on our jobs board.

For more information on our Jobs Board:
<https://southtexas.assp.org/jobs>

ASSP Career Center

The Career Center includes a new career resources website from ASSP. It includes training modules on topics such as resumes, cover letters, job boards, and interviewing.

The Networking Partners Program is designed to pair job seekers with individuals that can help them network and search for job leads. Get started today!

For more information on the Career Center:

1d • Edited • 

I'm currently looking to connect with Safety Leads and Safety Managers with experience across multiple disciplines in construction.

At 360 Safety, we support major construction and mission-critical projects where expectations are high and performance matters. We are actively hiring and we are looking for professionals who take safety seriously and represent the profession well in the field.

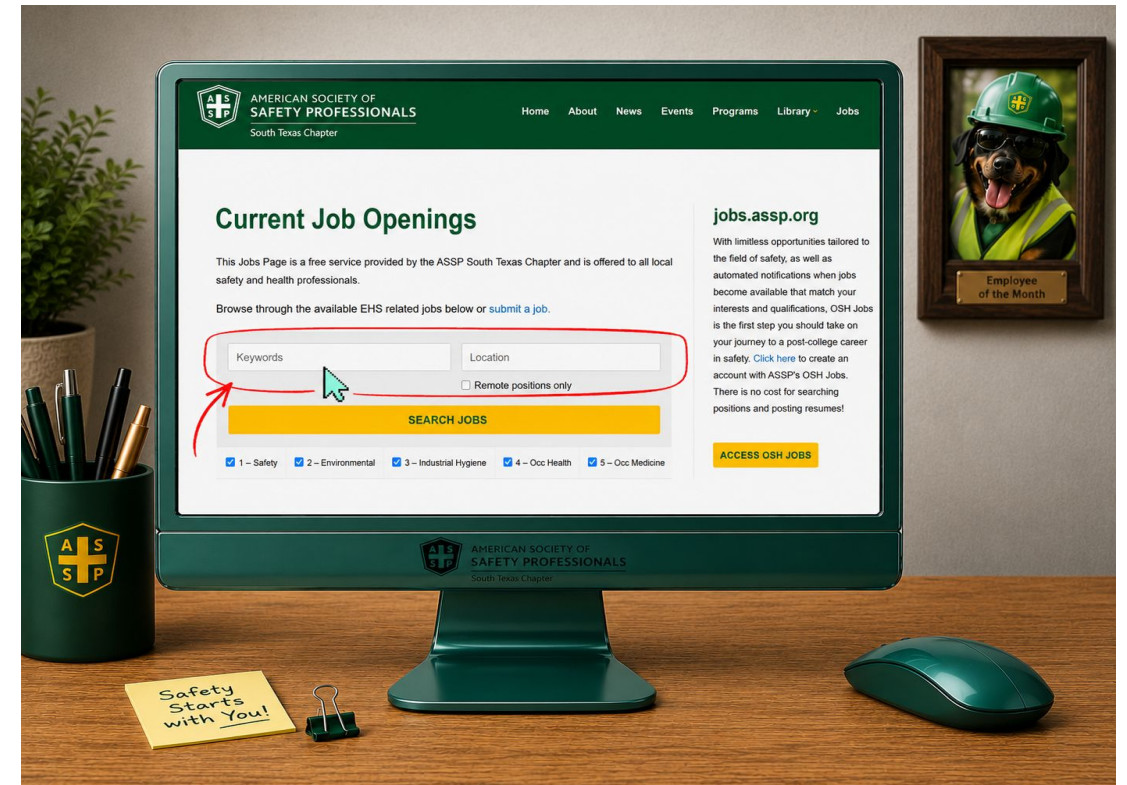

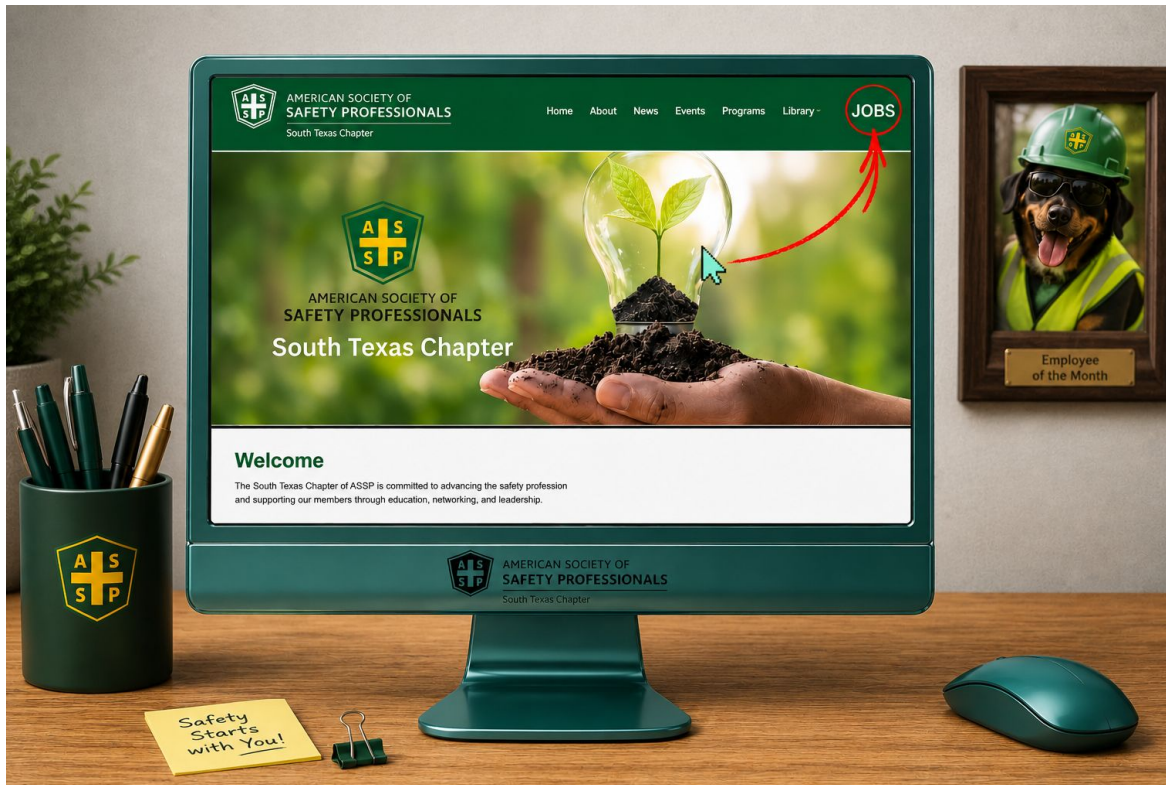

If you're interested in joining world-class teams on high-level projects...

 Send your resume to jose@360safetyllc.com or sachin@360safetyllc.com

ASSP Foundation Career Development Grant Program	Now Open	12/31/2025 11:59 PM	Start Application

Current Timezone: Central Time (US & Canada)

ASSP Foundation Academic Scholarship Program: Due February 15, 2025

- Academic scholarships are available for students within the occupational safety and health field, preparing for their careers or looking to supplement their careers with additional college coursework.
- Applications for ASSP Foundation academic scholarships will be accepted October 15, 2024 through February 15, 2025.
- Programs of study must be either directly related to the occupational safety and health field or will be utilized to support the occupational safety and health field. This can include a variety of degrees. If your degree is not directly related to occupational safety and health, you will be asked to clarify how you will be using your degree to support the field of occupational safety and health.
- Academic scholarships are announced by late May 2025.
- [Looking for the listing for the 2024 scholarship awardees?](#)
- [Find out more about the program by visiting the frequently asked questions page.](#)

Safety Moment / Moment de Seguridad

 **TAKE TIME**
IN YOUR MEETING TO COVER A
SAFETY MOMENT. 

WORK	HOME	PLAY
		
 Stay alert. Speak up. Look out for each other.	 Make safe choices. Protect your loved ones. Safety starts at home.	 Have fun. Stay aware. Play it safe.

 **Whether at Work, Home, or Play,
incidents can happen at any time.**

 **TÓMESE UN MOMENTO**
EN SU REUNIÓN PARA HABLAR DE
SEGURIDAD. 

TRABAJO	HOGAR	RECREACIÓN
		
 Manténgase alerta.  Hable si identifica un riesgo.  Cuide de sus compañeros.	 Tome decisiones seguras.  Proteja a sus seres queridos.  La seguridad comienza en casa.	 Disfrute de forma segura.  Manténgase atento.  Practique sus actividades con responsabilidad.

 **YA SEA EN EL TRABAJO, EL HOGAR O LA RECREACIÓN,
LOS INCIDENTES PUEDEN OCURRIR EN CUALQUIER MOMENTO.**

Safety Moment / Moment de Seguridad

Brain fog and disassociation from being chronically online | 60 Minutes Australia

- Digital Dementia – A study of how technology affects us.

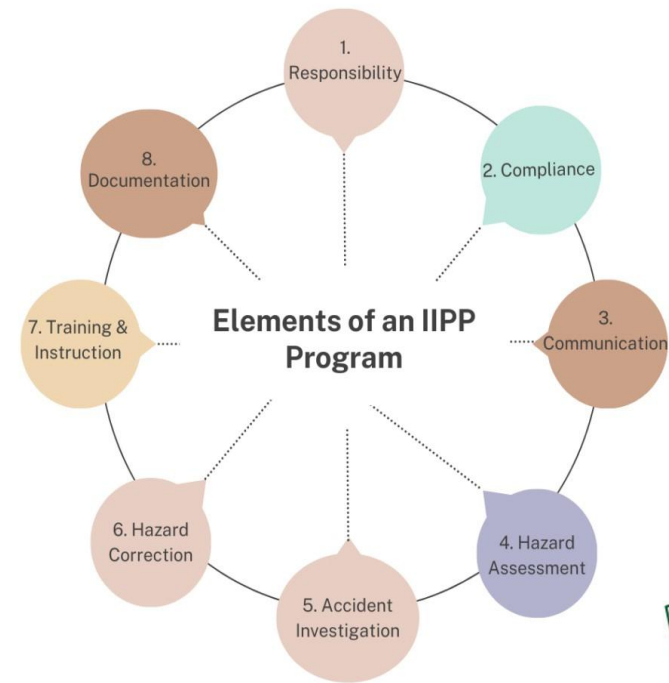

Why This Matters / Por Qué Importa

- Language barriers increase risk
- Las barreras del idioma aumentan el riesgo
- Clear communication = safer work from day one
- Comunicación clara = trabajo más Seguro del primer día
- Everyone deserves to understand safety expectations
- Todos merecen entender las expectativas de seguridad
- Goal: Build a process and culture where all workers are valued
- Meta: Crear proceso y una cultura donde todos los trabajadores son valorados

Why This Matters / Por Qué Importa

■ Construction / Constuccion

Category	Approx. English-dominant workers / Habla Ingles	Non-English / limited-English (proxy: Hispanic/foreign-born) / No habla o limitado en ingles
Workforce share / Trabajadores	~66–72%	~28–34%
Fatality rate / Tasa de mortalidad	Baseline	+41.6% higher
Injury rate / Tasa de lesiones	Baseline	+14.5% higher
Share of injuries / Proporción de lesiones	Lower share	Up to 47% of serious injuries
Fatality growth trend /Tendencia de crecimiento de las fatalidades	+16.5%	+107%

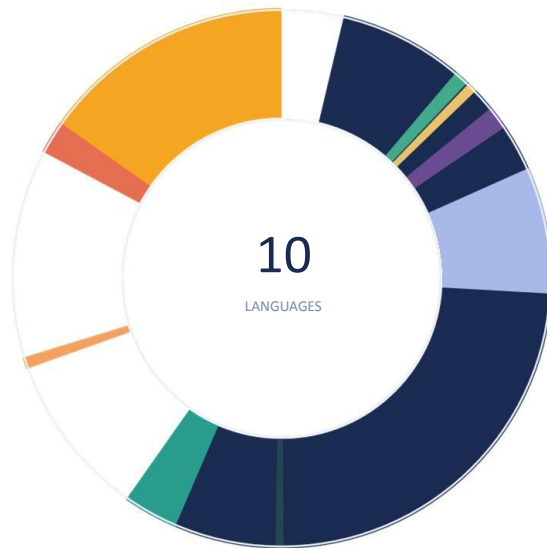

Why This Matters / Por Qué Importa

■ General Industry / Industrial General

Category	English-dominant workers	Non-English / limited-English (proxy groups)
Workforce share / Cuota de la fuerza laboral	~82%	~18%
Share of fatalities / Proporción de víctimas mortales	Lower share	~24% of all deaths
Fatality rate / Tasa de mortalidad	Lower baseline	Highest of all groups (4.3–4.6 per 100k)
Injury risk / Riesgo de lesiones	Standard baseline	Higher (especially in high-hazard industries) ⁹
Industry exposure / Exposición a la industria	Mixed	Concentrated in high-risk jobs

Solutions for Improving Worker Safety / Soluciones para Mejorar la Seguridad de los Trabajadores

Multilingual Safety Training

Deliver all safety orientations, toolbox talks, and drills in workers' primary language. Comprehension rates increase significantly when training matches the learner's language.

Turbo AI– Note Taker/Translator*, Quiz Creator, Podcast – Language Options (5 – 15 Min)

Research Tool, PPT, Image Creator

OSHA and Non-OSHA Training Course Toggle Option – English / Spanish or Custom Courses

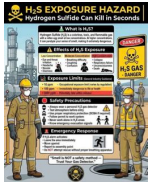

Bilingual Supervisors & Peer Leaders

Designate bilingual crew leads to bridge language gaps in real time on the job site or production floor. Peer leaders build trust and reduce hesitation to report hazards.

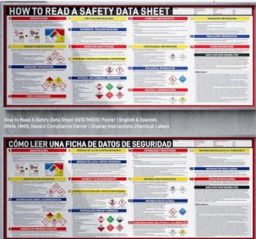

Visual & Pictogram Signage

Replace text-heavy warning signs with internationally recognized pictograms and color-coded hazard labels. Post multilingual versions of LOTO, emergency exit, PPE, and chemical hazard signs.

Translated SDS & Written Programs

Provide Safety Data Sheets, IIPP, and emergency procedures in all languages represented in your workforce. Cal/OSHA Section 3203 requires written safety programs workers can understand.

Technology: Translation Tools & QR Codes

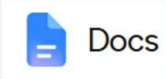

Deploy real-time translation apps, QR-linked multilingual safety videos, and digital safety boards accessible on workers' phones. Use AI-assisted translation tools to rapidly localize toolbox talk content.

Apple Translate – Words, Images, Conversation

Google Translate

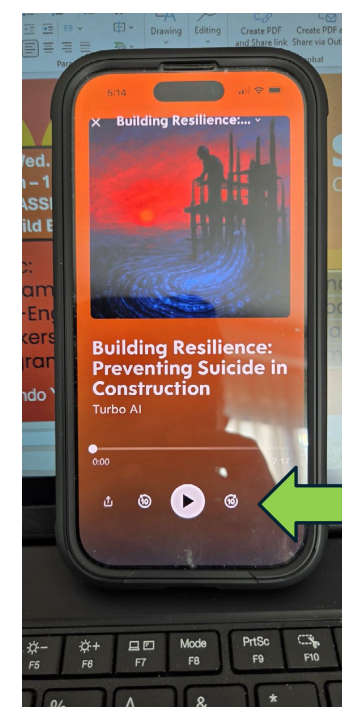

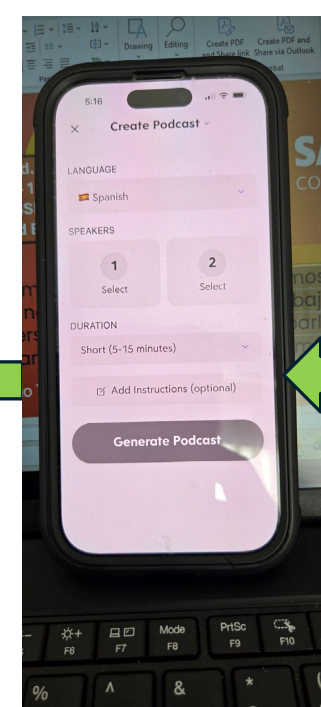

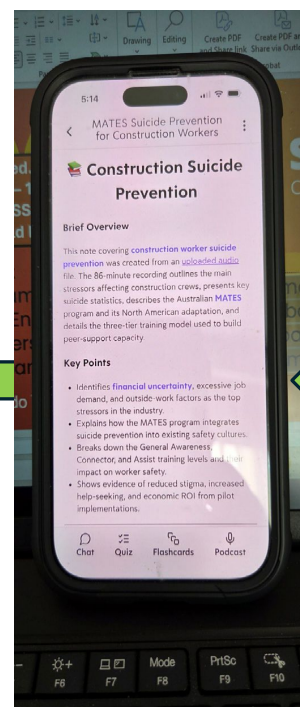

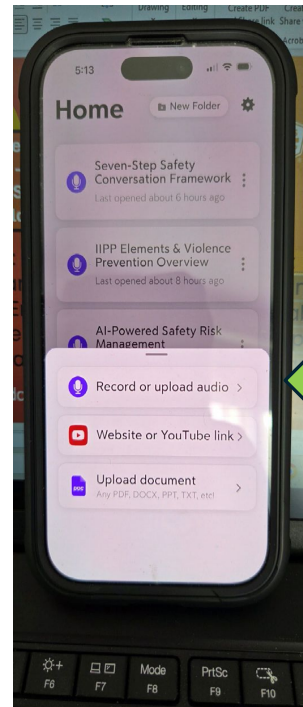

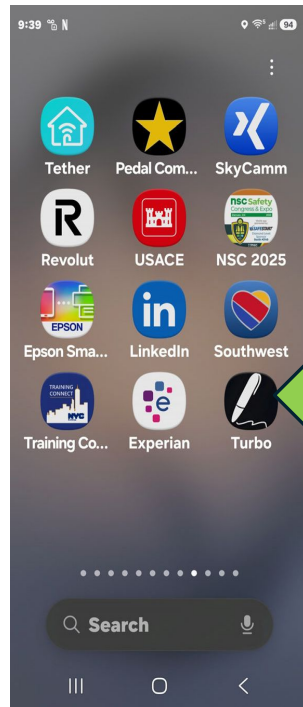

Near-Miss Reporting in Primary Language

Create multilingual anonymous near-miss reporting systems — app, hotline, or paper form. Workers who can report in their language are more likely to surface hazards before they become incidents.

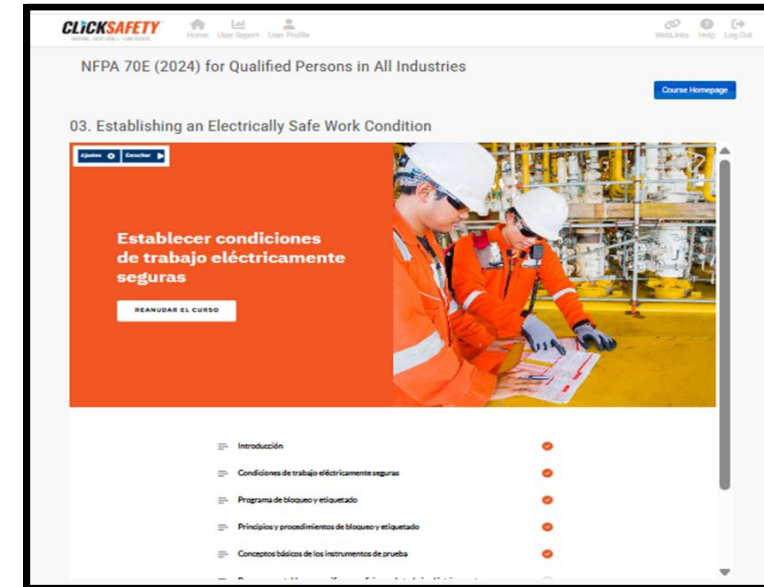

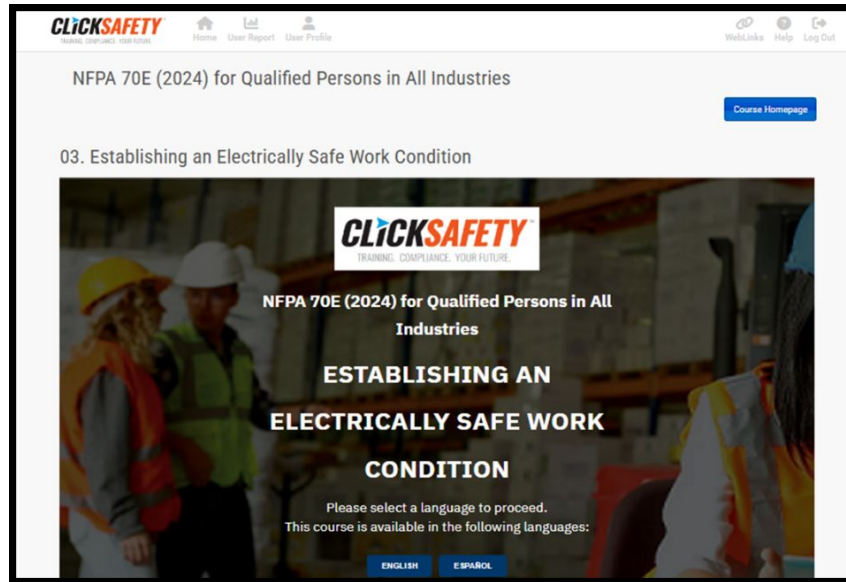

EHS Bottom Line: For every \$1 invested in multilingual safety training, employers save an estimated \$4–\$6 in workers' comp costs, lost time, and OSHA penalties. (Source: OSHA, NSC)

Examples – Safety Talks – Translation / Traducción

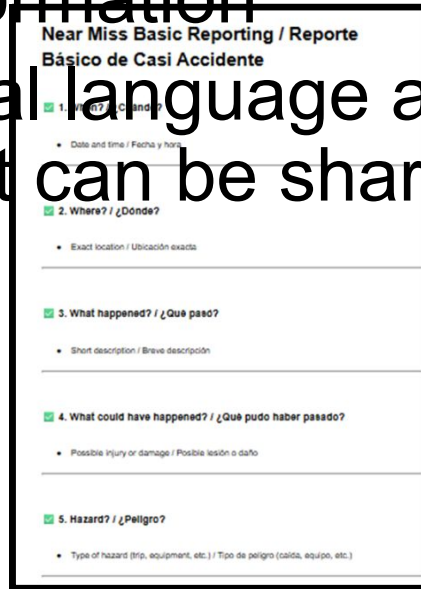

Examples – Training in other languages

Examples – Incident / Near Miss Capture

- Keep data requests simple but valued with key information
- Dual language and translation allow simple messages that can be shared easily and follow up easily

The image shows a screenshot of a 'Near Miss Basic Reporting' form, titled 'Near Miss Basic Reporting / Reporte Básico de Casi Accidente'. The form is divided into five numbered sections, each with a green checkmark icon and a question in both English and Spanish. Section 1: 'When? / ¿Cuándo?' with a sub-question 'Date and time / Fecha y hora'. Section 2: 'Where? / ¿Dónde?' with a sub-question 'Exact location / Ubicación exacta'. Section 3: 'What happened? / ¿Qué pasó?' with a sub-question 'Short description / Breve descripción'. Section 4: 'What could have happened? / ¿Qué pudo haber pasado?' with a sub-question 'Possible injury or damage / Posible lesión o daño'. Section 5: 'Hazard? / ¿Peligro?' with a sub-question 'Type of hazard (trip, equipment, etc.) / Tipo de peligro (caída, equipo, etc.)'. A green arrow points upwards from the bottom of the form.

Data Capture / Captura de Datos

Original Needs /
Necesidades

YOUR HEAT INJURY AND ILLNESS PREVENTION PLAN (HIIP) MUST INCLUDE THESE PROVISIONS*:

WHEN THE HEAT INDEX OF THE WORKPLACE REACHES 80°F	WHEN THE TEMPERATURE OF THE WORKPLACE REACHES 90°F
 HYDRATION At least 1 quart of "suitably cool" water per employee, per hour.	 MANDATORY BREAKS A minimum of one 15-minute paid rest break every two hours.
 SHADE/COOLING Accessible break areas with shade or air conditioning.	 OBSERVATION Implement a "buddy system" or supervisor observation to spot early signs of heat illness.
 ACCLIMATIZATION Schedule tasks for new or returning workers (away for 14+ days) to gradually increase their heat exposure.	 HAZARD ALERTS Pre-shift alerts must be sent to all employees reminding them of the risks and their rights to water and rest.

*Provisions outlined here not comprehensive to OSHA requirements, please consult your safety manager and see official OSHA documents for full details.

goSafe.com

AI

Data Creation /
Creacion de Datos

SU PLAN DE PREVENCIÓN DE LESIONES POR CALOR Y ENFERMEDADES CHIPP) DEBE INCLUIR ESTAS DISPOSICIONES*:

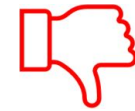

CUANDO EL ÍNDICE DE CALOR DEL EL LUGAR DE TRABAJO ALCANZA LOS 80°F	CUANDO LA TEMPERATURA DEL EL LUGAR DE TRABAJO ALCANZA LOS 90°F
 HIDRATACIÓN Al menos 1 litro de agua "adecuadamente fría" por empleado, por hora.	 DESCANSOS OBLIGATORIOS Un mínimo de un descanso remunerado de 15 minutos cada dos horas.
 SOMBRA/ENFRIAMIENTO Áreas de descanso accesibles con sombra o aire acondicionado.	 Observación "Implemente un "sistema de amigos" u observación del supervisor para detectar signos tempranos de enfermedad por calor.
 Acimatación Programar tareas nuevas o de retorno.	 ALERTAS DE PELIGROS

Best Practices for PowerPoint

Do:

- Use titles on each slide with your main idea
- Use bullet points and keep sentences brief
- Keep all text at least 18 pt on the slide for easy reading
- Leverage the different template slides by selecting the slide, right click and choose “Layout” to change

Don't:

- Change the fonts, add too much clipart or effects
- Make type too small or too light to read as your slides will be projected
- Change, cover or remove elements from the ASSP template
- Forget to run spell check
